IMPLANT KIT

Hans Medical Inc

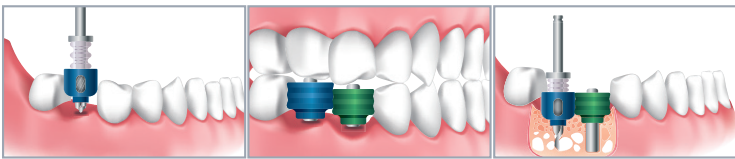

9301 Oakdale Ave Suite 160 Chatsworth, CA 91311

Office : 747-350-4321 | info@hansmedical.com | www.evertis-usa.com

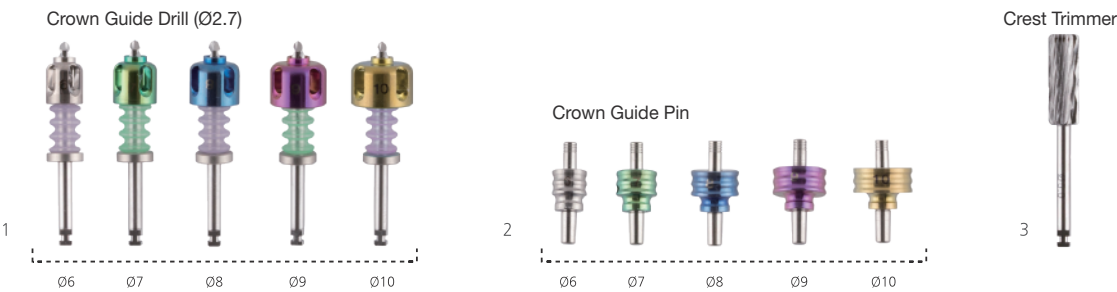

Implant Guide Kit

- Used for checking crown size and angulation of implant placement
- Provides placement guidance with one drilling procedure
- Guides angulation for 4 surfaces (mesial, distal, lingual and buccal)

Direction for use

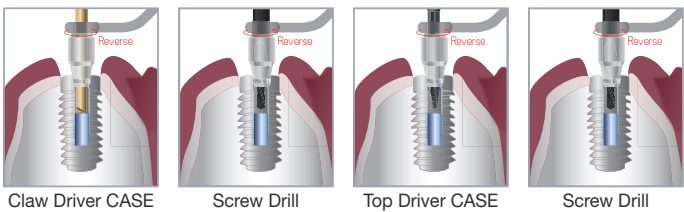

COMPONENTS

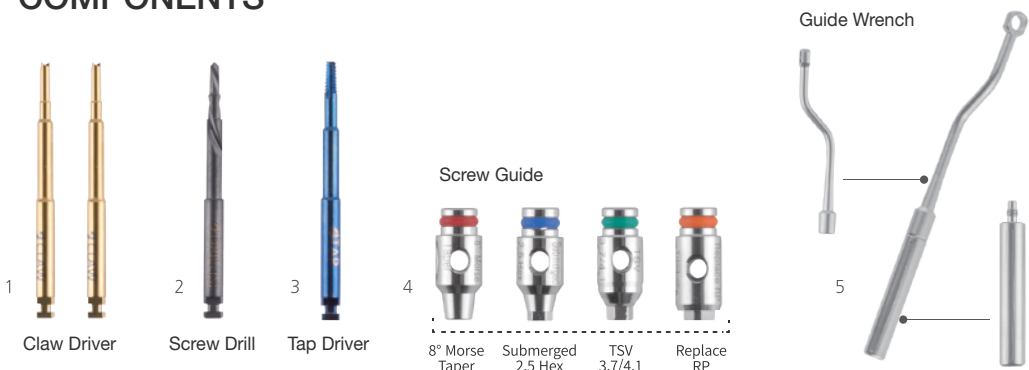

Screw Remover Kit

- Removes broken screws to save the implant
- Works for all major implant brands

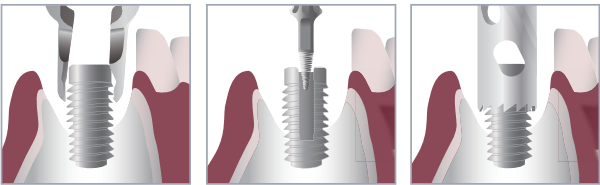

COMPONENTS

Fixture Remover Kit

- Removes fixture to preserve the surgery area to place a new one
- Fixture can be removed by the Implant Forcep or the Fixture Remover
- In case of damage in the fixture connection, Trephine Drills are available to remove the fixture

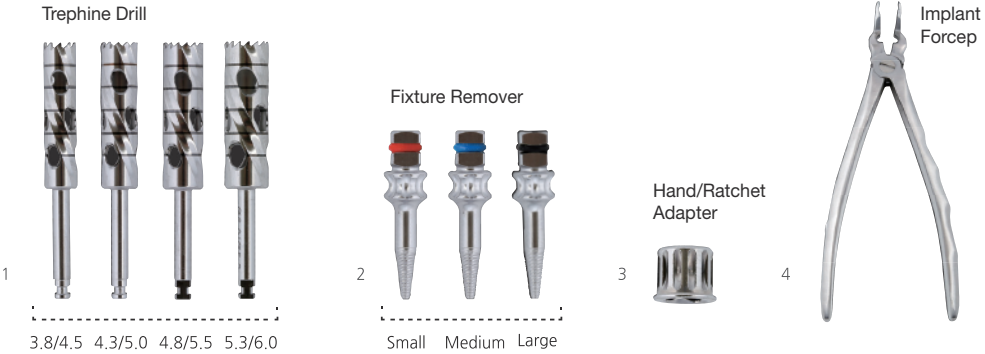

Direction for use

Implant Forcep CASE Implant Remover CASE Trephine CASE

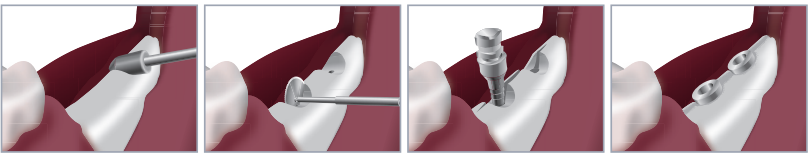

COMPONENTS

Bone Expander Kit

- Expands narrow bone ridge or bad bony tissue
- Reversed thread system on the Expander provides better stability of the fixture
- Helps initial fixation on low density bones by compressing the bone outward
